WHAT IS CPNI?

Customer Proprietary Network Information ("CPNI") is the information that LS Networks gathers from its customers 1) that relates to the quantity, configuration, type, destination, and amount of use of telecommunications services subscribed to by its customers, and that is made available to LS Networks by the customer solely by virtue of the carrier-customer relationship; and 2) information contained in the bills pertaining to telephone exchange service or telephone toll service received by a customer of a carrier. CPNI does not include subscriber list information.

CUSTOMER PRIVACY

LS Networks offers a variety of communications-related services, including local and long distance service, and telecommunications equipment. In order to better serve your communications needs, from time to time we would like to share your information across product lines within LS Networks. Our use of CPNI may enhance our ability to offer products and services tailored to your specific needs.
