

Voice and Unified Communications Services Agreement

This Agreement is entered into between Customer and LightSpeed Networks, Inc. ("LS Networks,") and is governed by and subject to the applicable Master Service Agreement ("MSA") between Customer and LS Networks, incorporated herein by reference. If Customer has not executed an MSA then this Agreement shall be governed by the terms and conditions of LS Network's standard MSA (as posted on LSNetworks.net/about/legal) incorporated herein by reference. Capitalized terms not defined will have the same meaning ascribed to them in the MSA.

This Agreement sets forth the terms and conditions that govern the purchase, provision and use of Voice and Unified Communications Services, including products offered under the name AspenUC and its related services (the "Services"), as purchased by Customer by way of an approved Service Order.

1. Service Use; Limitations, Customer Responsibilities

a. **Use of Service.** Customer agrees that the use of the Service is, without limitation, done at its sole responsibility, is at its own risk and is subject to all applicable local, state, national and international laws and regulations. Customer is liable for the use of the Service by others, with or without permission. Customer may not resell, assign or otherwise transfer Service under this Agreement to any other person for any purpose, or relocate or make any change for the use of the Service, without advance written permission from LS Networks. Customer may only use the Service for lawful and general business purposes and may not use the Service in any manner or purpose prohibited by this Agreement, regulation, law or LS Networks' Acceptable Use Policy (posted at LSNetworks.net/about/legal). Customer may not use the Service to operate a telemarketing or outbound call center, to broadcast mass faxes or communications, fax blasting, or continuous or extensive call forwarding. Customer may not use auto-dialers or similar devices to generate robocalls or other unsolicited or marketing calls or use the Service in a manner or extent beyond standard business usage as determined by LS Networks.

b. **E-911 Limitations.** Customer understands and acknowledges that electric power, a working and technically acceptable Internet connection, and compatible IP-based equipment are required for the Service to function and must be purchased and maintained by Customer. If any of the required components fail or are not functioning, Customer will not be able to receive calls or make calls, including calls to 911. Customer represents and warrants that it will notify all Service end-users of the interaction and/or limitations of E911 with the Service and re-location of the Service. Customer is solely responsible for third-party claims and liability arising from failure to so notify end-users. LS Network's liability to Customer, anyone dialing 911 using the Service, or to any other person or party, for any loss or damage arising from errors, interruptions, omissions, delays, defects, or failures of 911 services whether caused by negligence or otherwise, shall not exceed the amount of charges for such services during the affected period of time. This limitation of liability is in addition to any other limitations contained in this Agreement or the MSA.

Pursuant to FCC requirements, LS Networks enables the routing of E-911 calls only in locations where such 911 calling is

available and only in the limited circumstances described below. An end-user's ability to access an appropriate public safety access point depends on the type, configuration and location of the phone used.

- i. **Electric Service.** A loss of electric service will interrupt the Service. The provided Equipment is compatible with battery or other backup power which Customer may purchase at its own expense.
- ii. **Equipment.** Malfunction or failure of equipment, software or hardware needed for end-to-end Internet functionality (e.g., routers, IP phones, and analog gateways) can limit access to E-911.
- iii. **Relocation of Equipment.** LS Networks is able to provide access to E-911 only at the registered Service location and if used elsewhere, E-911 will not be available.

Customer acknowledges these 911 limitations and is solely responsible for maintaining alternative arrangements for access to 911. A power failure or service disruption may also require a reset of equipment prior to using the Service. Customer agrees not to move equipment to a new service location until after contacting LS Networks to complete a move order of the Service and updated the registered service location as required by LS Networks to ensure that 911 dialed calls can be correctly routed to the appropriate emergency response personnel.

- c. **Dialing.** Customer is solely responsible for configuring any fax, security, alarm system or other system settings. Customer may place international calls only if subscribed to the International Call Plan, this plan includes calling to Mexico, Canada, Hawaii and Alaska.
- d. **Voicemail.** Voicemail is provided as part of the Service. LS Networks will provide information on establishing and managing individual voice mailboxes. Customer must provide notice to LS Networks to opt out of individual mailboxes.
- e. **Customer Facilities and Premises.** Electric power, a working and technically acceptable Internet connection, and compatible IP-based equipment are required for the Service to function and must be purchased and maintained by Customer. Except as otherwise expressly stated herein, Customer is responsible for all equipment (including, but

not limited to, routers, switches and firewalls), software, premises wiring, power sources, telephone connections and/or communications services necessary for access to and use of the Services ("Facilities"). Customer is responsible for ensuring the Facilities are compatible with LS Networks requirements and that they continue to be compatible with subsequent revision levels of the Services. Customer and will allow LS Networks access to the premises to perform necessary installation, inspection, repair or replacement services and if Customer is not the owner of the premises to be entered, will work with LS Networks to obtain the necessary permissions to allow work to be done on such premises.

2. **Term and Termination; Changes to Service; and Equipment Return**

- a. **Term.** The initial term of this Agreement shall commence and be effective when services are delivered at the Point of Demarcation, or at specified start date indicated in the applicable Service Order and continue for the term specified therein. Thereafter, the term of such Service shall automatically renew and be extended for successive one-month terms until terminated by either party subject to Section 5 of the MSA, or unless otherwise specified in the Service Order. In the event of any inconsistency between the terms contained in this Agreement and any specific provisions of the Service Order, the terms of the Service Order shall prevail.
- b. **Termination.** LS Networks may terminate Service under this Agreement or any Service Order, or suspend Services pursuant to Sections 7 and 8 of the MSA. Customer may terminate Service under this Agreement or any Service Order subject to Section 9 of the MSA.

Customer may use the Software on the hardware on which it is installed only as part of or for use with the Service and for no other purpose. The Software may be accompanied by an end-user license agreement from LS Networks or a third party. Customer use of the Software is governed first by the terms of this Agreement and then that license agreement, where applicable. The Software is provided to Customer for the sole purpose of enabling Customer to

use the Service. Customer agrees that the Software is the confidential information of LS Networks or its third-party licensors, providers, or suppliers, which Customer shall not disclose to others to use except as expressly permitted herein. The Software contains copyrighted material, trade secrets, patents and proprietary information owned by LS Networks or its third-party licensors, providers, or suppliers. Customer may not remove or alter any trademark, trade name, copyright or other proprietary notices, legends, symbols or labels appearing on or in the Software. Customer is not granted any title or rights of ownership in the Software.

- b. Unless otherwise provided, LS Networks provides limited technical assistance and support for third-party Software. Additional technical assistance or support with regard to programming needs for third-party software is provided by the software supplier in accordance with such third party's policies or other terms.
- c. Customer agrees to comply with the terms of licensing or service that apply to any Service features. Violations of such third party provider's terms of service may, in LS Network's sole discretion, result in termination of Service. Customer further agrees to indemnify, defend and hold LS Networks harmless from and against any claims or liabilities that may result from use of such third-party services.

If Customer does not agree to the revision(s), Customer must terminate Service immediately and such termination may be subject to any applicable early termination fees.
6. **Indemnification.** Customer shall indemnify LS Networks and hold harmless for any damages, costs, liabilities and attorneys' fees incurred from any claim arising from Customer's use of the Services, or the use of Customer's Service by others, including without limitation, violation of the copyrights, trademarks or other intellectual property rights of others, a combination of the Services with other products or services not provided by LS Networks, any modification of the Services or any breach of this Agreement by Customer.
